EXPERIENCE

Procurement Analyst

Jul. 2026 – Present

Ontario Power Generation

Pickering, ON

- Managed end to end **procurement lifecycle** for engineered equipment, materials, and services to support **nuclear refurbishment** and **capital projects**. Ensured compliance with OPG procurement policies and governance.
- Utilized **Ariba, Asset Suit, Power BI supply chain dashboards** to provide **procurement data analysis**. Monitored purchasing performance, supplier metrics, inventory trends, and project status. Improved data driven decision making and continuous process improvements.
- Developed sourcing strategies by preparing and administering **RFIs, RFQs, RFPs**, commercial evaluations, purchase orders, and contracts while collaborating with cross functional engineering and project teams.
- Evaluated supplier proposals, negotiated commercial terms, monitored vendor performance, and administered contracts to optimize **cost, quality, and schedule**.
- Supported inventory management and procurement reporting. Maintained accurate procurement documentation to ensure audit readiness and operational efficiency.
- Partnered with **engineering, project management, construction, and operations teams** to align procurement activities with project schedules, milestones and business objectives.
- Analyzed vendor qualification, supplier relationship management, contract negotiations, and procurement oversight activities for **Engineering, Procurement, Construction (EPC)** processes.

Business Analyst

Dec. 2025 – Jul. 2026

Ontario Power Generation

Oshawa, ON

- Delivered **business plan** and **monthly nuclear energy forecasts**. Analyzed derates, outage submissions, and Safety Performance Indicator (SPI) data. Coordinated timely report to **Canadian Nuclear Safety Commission (CNSC)**, **INPO/WANO**, and **Independent Electricity System Operator (IESO)** market.
- Managed **Nuclear Generation (NuGen)**, financial and statistical databases. Prepared **monthly revenues, operating budgets, and capital variances** of Pickering nuclear units to internal and external stakeholders.
- Conducted reviews of nuclear outages, outage management, generation scheduling, financial risk management and compliance monitoring to provide **financial, budgetary and administrative** data to support operational teams.
- Coordinated the submission of operational metrics to the **Institute of Nuclear Power Operations (INPO)**. Ensured compliance with industry reporting requirements and supporting external benchmarking initiatives.
- Prepared Pickering Nuclear station's **short and long-term fleet generation forecasting and targets** to be utilized by **energy market teams** for **budgeting, business planning and long-term generation planning**.
- Performed monthly performance and compliance reviews (**Report Card analysis, KPIs**) to assess operational effectiveness. Strengthened internal controls, supported audit readiness and quality assurance processes.

Business Analyst Intern

May. 2025 – Dec. 2025

Ontario Power Generation

Pickering, ON

- Performed observation and coaching at **Pickering Nuclear Generating Station**. Ensured compliance with **Work Protection Code (WPC)**, **Proficiency Model**, **nuclear safety standards**, and reliability of daily and monthly reporting.
- Analyzed **Sequence of Event Records (SOER)**, **Station Condition Record (SCR)**, and **Operations Shift Logs** to identify trends, detect anomalies, and provide data-driven insights with **TWIN Model** that supported fleet-wide operational improvements.
- Enhanced **Crew Learning Brief (CLB)** dashboards to visualize key performance indicators, operational trends, and station-level insights. Enabled faster and informed decision making for operations teams.
- Utilized **Corrective Action Program (CAP)** and **Electronic Safe Work Plan (eSWP)**. Validated performance data and identifying trends. Highlighted emerging issues requiring line management attention.
- Collaborated with operators and performance improvement teams to resolve data discrepancies, and **corrective action tracking**. Ensured alignment between **station-level metrics** and **corporate reporting requirements**.
- Developed **Power BI** dashboards. Visualized **key performance indicators, operational risks, and performance trends** to support data-driven decision making by internal and external stakeholders.
- Administered **Electronic Performance Reporting (EPR)** program. Validated operational data submissions, and ensured accuracy of information utilized by stakeholders for reporting and performance monitoring.

PROJECTS

- Deep Learning Medical Imaging Analysis** | *Python* | [See GitHub Repository](#) Dec. 2024
- Developed a U-Net model for brain tumor segmentation, achieving a Dice Coefficient of **0.91** and F1-score of **0.89**, showcased in deep learning, computer vision, and medical imaging.
 - Processed **1,000+** MRI images with techniques such as resizing **256x256**, normalization, and data augmentation to enhance model generalization, achieved a Jaccard Index of **0.87** and precision of **0.90** on test data.
 - Automated an end-to-end machine learning pipeline for segmentation mask generation, evaluation, and visualization, using **TensorFlow**, **OpenCV**, and **Scikit-learn** to streamline model deployment and interpretation.
- Database for Shoppers Drug Mart** | *SQL, Python, Bash* | [See GitHub Repository](#) Nov. 2024
- Designed a Point of Sale (POS) database system for Shoppers Drug Mart using **SQL** and **Python**, with **6+** relational tables to manage transaction recording, inventory updates, and customer loyalty point tracking.
 - Implemented advanced queries and normalization techniques (BCNF/3NF) to manage inventory, track employee transactions, and maintain customer profiles, ensuring **100%** data integrity and optimized performance.
- AI User Behavior and ChatGPT Adoption** | *Python* | [See GitHub Repository](#) Sep. 2023
- Designed and analyzed a 500+ response survey using **Python**, **Pandas**, **Matplotlib**, **Microsoft Excel**, and **Power BI**. Automated CSV data processing, improving efficiency by **30%**, and developed interactive visualizations (bar graphs, pie charts) to present insights on demographics, user preferences, and AI adoption trends.
 - Developed modular functions for reusable data visualizations, including bar charts, pie charts, and custom annotations, automating **10+** visuals to enhance readability and decision-making.
- Audio App Simulator** | *Java* | [See GitHub Repository](#) Apr. 2023
- Developed a text-based music store application in **Java**, enabling users to browse and manage a library of **100+** songs, audiobooks, and podcasts, with features like genre categorization, artist retrieval, and transaction processing. Supported **50+** search and playback operations through a streamlined interface.
 - Applied **object oriented programming** (OOP) principles (encapsulation, inheritance, polymorphism) to design a modular codebase. Utilized HashMaps, Collections, and interfaces to optimize data handling, improving processing efficiency by **40%** and ensuring seamless management of up to **1000+** items in the database.

CERTIFICATIONS & TECHNICAL SKILLS

Certifications: CAPM (Certified Associate in Project Management-In Progress), IBM Project Management Fundamentals, IBM Cybersecurity Fundamentals, IBM Governance-Risk-Compliance & Data Privacy, IBM Vulnerability Management, IBM System & Network Security, IBM Cloud Security, IBM Security Operations & Management, IBM Incident Response & Systems Forensics, IEEE Python Programming Language, Amazon Web Service Technical Essentials

Technical Skills: Business Process Integration, Software Development, Python, Java, SQL, GitHub, Git, Database Management, Primary Project Phases (Identification, Initiation, Definition, Execution, Close-out), Predictive (Waterfall) & Agile Methodologies, Project Controls & Reporting, Business Analysis & Reporting, Scope-Schedule-Cost Analysis & Forecasting, Stakeholders Relationship, Reconciliation Processes, Performance Trending & Analysis, Risk Assessment & Management, Quality Assurance (QA), Process Automation, Power BI, Microsoft Excel

EDUCATION

Bachelor of Science in Computer Science (Honours) Toronto, Canada
Toronto Metropolitan University (formerly Ryerson University) Oct. 2025
