EXPERIENCE

Procurement Analyst/Specialist

Jul. 2026 – Present

Ontario Power Generation

Pickering, ON

- Managed end to end **procurement lifecycle** for engineered equipment, materials, and services to support **nuclear refurbishment** and **capital projects**. Ensured compliance with OPG procurement policies and governance.
- Utilized **Ariba, Asset Suit, Power BI supply chain dashboards** and software tools to provide **procurement data analysis**. Monitored purchasing performance, supplier metrics, inventory trends, and project status. Improved data driven decision making and continuous process improvements.
- Developed sourcing strategies by preparing and administering **RFIs, RFQs, RFPs**, commercial evaluations, purchase orders, and contracts while collaborating with cross functional engineering and project teams.
- Evaluated supplier proposals, negotiated commercial terms, monitored vendor performance, and administered contracts to optimize **cost, quality, and schedule**.
- Supported inventory management and procurement reporting. Maintained accurate procurement documentation to ensure audit readiness and operational efficiency.
- Partnered with **engineering, project management, construction, and operations teams** to align procurement activities with project schedules, milestones and business objectives.
- Analyzed vendor qualification, supplier relationship management, contract negotiations, and procurement oversight activities for **Engineering, Procurement, Construction (EPC)** processes.

Business Analyst

Dec. 2025 – Jul. 2026

Ontario Power Generation

Oshawa, ON

- Delivered **business plan** and **monthly nuclear energy forecasts**. Analyzed derates, outage submissions, and Safety Performance Indicator (SPI) data. Coordinated timely report to **Canadian Nuclear Safety Commission (CNSC)**, **INPO/WANO**, and **Independent Electricity System Operator (IESO)** market.
- Managed **Nuclear Generation (NuGen)**, financial and statistical databases. Prepared **monthly revenues, operating budgets, and capital variances** of Pickering nuclear units to internal and external stakeholders.
- Conducted reviews of nuclear outages, outage management, generation scheduling, financial risk management and compliance monitoring to provide **financial, budgetary and administrative** data to support operational teams.
- Coordinated the submission of operational metrics to the **Institute of Nuclear Power Operations (INPO)**. Ensured compliance with industry reporting requirements and supporting external benchmarking initiatives.
- Prepared Pickering Nuclear station's **short and long-term fleet generation forecasting and targets** to be utilized by **energy market teams** for **budgeting, business planning and long-term generation planning**.
- Performed monthly performance and compliance reviews (**Report Card analysis, KPIs**) to assess operational effectiveness. Strengthened internal controls, supported audit readiness and quality assurance processes.

Business Analyst Intern

May. 2025 – Dec. 2025

Ontario Power Generation

Pickering, ON

- Performed observation and coaching at **Pickering Nuclear Generating Station**. Ensured compliance with **Work Protection Code (WPC)**, **Proficiency Model**, **nuclear safety standards**, and reliability of daily and monthly reporting.
- Analyzed **Sequence of Event Records (SOER)**, **Station Condition Record (SCR)**, and **Operations Shift Logs** to identify trends, detect anomalies, and provide data-driven insights with **TWIN Model** that supported fleet-wide operational improvements.
- Enhanced **Crew Learning Brief (CLB)** dashboards to visualize key performance indicators, operational trends, and station-level insights. Enabled faster and informed decision making for operations teams.
- Utilized **Corrective Action Program (CAP)** and **Electronic Safe Work Plan (eSWP)**. Validated performance data and identifying trends. Highlighted emerging issues requiring line management attention.
- Collaborated with operators and performance improvement teams to resolve data discrepancies, and **corrective action tracking**. Ensured alignment between **station-level metrics** and **corporate reporting requirements**.
- Developed **Power BI** dashboards. Visualized **key performance indicators, operational risks, and performance trends** to support data-driven decision making by internal and external stakeholders.
- Administered **Electronic Performance Reporting (EPR)** program. Validated operational data submissions, and ensured accuracy of information utilized by stakeholders for reporting and performance monitoring.

Operations Team Member

Mar. 2023 – Nov. 2024

Starbucks

Toronto, ON

- Provided **quality assurance** by training new team members on standardized procedures, and ensured compliance with Starbucks operational and safety guidelines.
- Monitored **key performance indicators (KPIs)**, including transaction volume, peak sales periods, and supply demands. Enhanced data-driven decisions in daily operations and improved operational efficiency by **85%**.
- Analyzed sales and supply data to optimize inventory planning, reduced overstock and waste.
- Supervised team members to implement process improvements strategies, according to operational data and customer feedback. Improved service efficiency and reducing wait times by **20%**.

Lawyer

May. 2019 – Sep. 2021

Kaplan Law Firm

Ankara, Turkey

- Managed **legal projects, scope, timelines, and deliverables**. Performed evidence analysis, legal research, and strategy development. Achieved alignment with defined objectives and regulatory requirement.
- Identified risks by analyzing legal projects, **contract details** and potential outcomes. Implemented mitigation strategies, reduced potential legal exposure.
- Maintained project documentation (case briefs, affidavits, reports). Ensured adherence to governance standards.
- Coordinated with multiple **stakeholders** (clients, legal teams, and court officials). Facilitated clear communication and alignment across all phases of the case life cycle.
- Monitored **legal projects** against milestones, evaluated outcomes, and implemented process improvements. Resulted enhanced efficiency and consistency.

CERTIFICATIONS & TECHNICAL SKILLS

Certifications: CAPM (Certified Associate in Project Management-In Progress), IBM Project Management Fundamentals, IBM Cybersecurity Fundamentals, IBM Governance-Risk-Compliance & Data Privacy, IBM Vulnerability Management, IBM System & Network Security, IBM Cloud Security, IBM Security Operations & Management, IBM Incident Response & Systems Forensics

Technical Skills: Business Analysis & Reporting, Performance Trending & Analysis, Risk Assessment & Management, Stakeholders Relationship, Primary Project Phases (Identification, Initiation, Definition, Execution, Close-out), Predictive (Waterfall) & Agile Methodologies, Project Controls & Reporting, Scope-Schedule-Cost Analysis & Forecasting, Business Planning, Reconciliation Processes, Quality Assurance (QA), Power BI, Microsoft Excel

EDUCATION

Bachelor of Science in Computer Science (Honours)

Toronto, Canada

Toronto Metropolitan University (formerly Ryerson University)

Oct. 2025

Bachelor of Laws (LLB)

Kırıkkale, Turkey

Kırıkkale University

Aug. 2019
