Experience

Procurement Analyst/Specialist Jul. 2026 – Present

Ontario Power Generation *Pickering, ON*

- Managed end to end **procurement lifecycle** for engineered equipment, materials, and services to support **nuclear refurbishment** and **capital projects**. Ensured compliance with OPG procurement policies and governance.
- Utilized **Ariba**, **Asset Suite 9**, **Power BI supply chain dashboards** and software tools to provide **procurement data analysis**. Monitored purchasing performance, supplier metrics, inventory trends, and project status. Improved data driven decision making and continuous process improvements.
- Developed sourcing strategies by preparing and administering **RFIs**, **RFQs**, **RFPs**, commercial evaluations, purchase orders, and contracts while collaborating with cross functional engineering and project teams.
- Evaluated supplier proposals, negotiated commercial terms, monitored vendor performance, and administered contracts to optimize **cost**, **quality**, and **schedule**.
- Supported inventory management and procurement reporting. Maintained accurate procurement documentation to ensure audit readiness and operational efficiency.
- Partnered with **engineering**, **project management**, **construction**, and **operations teams** to align procurement activities with project schedules, milestones and business objectives.
- Analyzed vendor qualification, supplier relationship management, contract negotiations, and procurement oversight activities for **Engineering, Procurement, Construction (EPC)** processes.

Business Analyst Dec. 2025 – Jul. 2026

Ontario Power Generation *Oshawa, ON*

- Delivered **business plan** and **monthly nuclear energy forecasts**. Analyzed derates, outage submissions, and Safety Performance Indicator (SPI) data. Coordinated timely report to **Canadian Nuclear Safety Commission (CNSC)**, **INPO/WANO**, and **Independent Electricity System Operator (IESO)** market.
- Managed **Nuclear Generation (NuGen)**, financial and statistical databases. Prepared **monthly revenues, operating budgets**, and **capital variances** of Pickering nuclear units to internal and external stakeholders.
- Conducted reviews of nuclear outages, outage management, generation scheduling, financial risk management and compliance monitoring to provide **financial, budgetary** and **administrative** data to support operational teams.
- Coordinated the submission of operational metrics to the **Institute of Nuclear Power Operations (INPO)**. Ensured compliance with industry reporting requirements and supporting external benchmarking initiatives.
- Prepared Pickering Nuclear station's **short** and **long-term fleet generation forecasting** and **targets** to be utilized by **energy market teams** for **budgeting, business planning** and **long-term generation planning**.
- Performed monthly performance and compliance reviews **(Report Card analysis, KPIs)** to assess operational effectiveness. Strengthened internal controls, supported audit readiness and quality assurance processes.

Business Analyst Intern May. 2025 – Dec. 2025

Ontario Power Generation *Pickering, ON*

- Performed observation and coaching at **Pickering Nuclear Generating Station**. Ensured compliance with **Work Protection Code (WPC)**, **Proficiency Model**, **nuclear safety standards**, and reliability of daily and monthly reporting.
- Analyzed **Sequence of Event Records (SOER)**, **Station Condition Record (SCR)**, and **Operations Shift Logs** to identify trends, detect anomalies, and provide data-driven insights with **TWIN Model** that supported fleet-wide operational improvements.
- Enhanced **Crew Learning Brief (CLB)** dashboards to visualize key performance indicators, operational trends, and station-level insights. Enabled faster and informed decision making for operations teams.
- Utilized **Corrective Action Program (CAP)** and **Electronic Safe Work Plan (eSWP)**. Validated performance data and identifying trends. Highlighted emerging issues requiring line management attention.
- Collaborated with operators and performance improvement teams to resolve data discrepancies, and **corrective action tracking**. Ensured alignment between **station-level metrics** and **corporate reporting requirements**.
- Developed **Power BI** dashboards. Visualized **key performance indicators, operational risks, and performance trends** to support data-driven decision making by internal and external stakeholders.
- Administered **Electronic Performance Reporting (EPR)** program. Validated operational data submissions, and ensured accuracy of information utilized by stakeholders for reporting and performance monitoring.

Inventory Controller Mar. 2023 – Nov. 2024

Starbucks *Toronto, ON*

- Monitored **inventory levels**, **supply requirements**, and **sales activity**. Supported accurate stock planning and daily operational needs.
- Analyzed **sales** and **supply data**. Identified inventory requirements, **optimize stock levels**, and minimize **overstock** and **product waste**.
- Tracked key operational indicators, **including transaction volume**, **peak sales periods**, and **supply demand**. Supported inventory and replenishment decisions.
- Maintained **inventory accuracy** by following standardized procedures and supporting quality assurance across daily inventory and operational activities.
- Trained new team members on standardized operational procedures and ensured compliance with company operational and safety guidelines.

Lawyer May. 2019 – Sep. 2021

Kaplan Law Firm *Ankara, Turkey*

- Reviewed **contract terms**, **legal obligations**, and potential **contractual risks** to identify issues and support appropriate legal strategies.
- Conducted legal research and analysis on contractual matters, disputes, regulatory requirements, and applicable legal principles. Supported **case strategy** and **client objectives**.
- Managed legal deliverables from planning through resolution, tracking **scope**, **timelines**, **deliverables**, and key **milestones** while ensuring alignment with legal and regulatory requirements.
- Prepared and maintained legal documentation, including case briefs, affidavits, reports, and supporting documentation. Ensured accuracy and adherence to governance standards.
- Coordinated with clients, legal teams, and court officials to communicate contractual and legal matters, clarify requirements, and maintain alignment throughout the case lifecycle.

Certifications & Technical Skills

Certifications: CAPM (Certified Associate in Project Management-In Progress), IBM Project Management Fundamentals, IBM Cybersecurity Fundamentals, IBM Governance-Risk-Compliance & Data Privacy, IBM Vulnerability Management, IBM System & Network Security, IBM Cloud Security, IBM Security Operations & Management, IBM Incident Response & Systems Forensics

Technical Skills: Business Analysis & Reporting, Financial Reporting, Performance Trending & Analysis, Risk Assessment & Management, Stakeholders Relationship, Primary Project Phases (Identification, Initiation, Definition, Execution, Close-out), Predictive (Waterfall) & Agile Methodologies, Project Controls & Reporting, Scope-Schedule-Cost Analysis & Forecasting, Business Planning, Reconciliation Processes, Quality Assurance (QA), Power BI, Microsoft Excel

Education

Bachelor of Science in Computer Science (Honours) Toronto, Canada

Toronto Metropolitan University (formerly Ryerson University) *Oct. 2025*

Bachelor of Laws (LLB) Kırıkkale, Turkey

Kırıkkale University *Aug. 2019*
