EXPERIENCE

Business Analyst

Dec. 2025 – Present

Ontario Power Generation

Oshawa, ON

- Delivered **business plan** and **monthly nuclear energy forecasts**. Analyzed derates, outage submissions, and Safety Performance Indicator (SPI) data. Coordinated timely report to **Canadian Nuclear Safety Commission (CNSC)**, **INPO/WANO**, and **Independent Electricity System Operator (IESO)** market.
- Managed **Nuclear Generation (NuGen)**, financial and statistical databases. Prepared **monthly revenues, operating budgets**, and **capital variances** of Pickering nuclear units to internal and external stakeholders.
- Conducted reviews of nuclear outages, outage management, generation scheduling, financial risk management and compliance monitoring to provide **financial, budgetary** and **administrative** data to support operational teams.
- Coordinated the submission of operational metrics to the **Institute of Nuclear Power Operations (INPO)**. Ensured compliance with industry reporting requirements and supporting external benchmarking initiatives.
- Prepared Pickering Nuclear station's **short and long-term fleet generation forecasting** and **targets** to be utilized by **energy market teams** for **budgeting, business planning** and **long-term generation planning**.
- Performed monthly performance and compliance reviews (**Report Card analysis, KPIs**) to assess operational effectiveness. Strengthened internal controls, supported audit readiness and quality assurance processes.

Business Analyst/Performance Improvement Intern

May. 2025 – Dec. 2025

Ontario Power Generation

Pickering, ON

- Performed observation and coaching at **Pickering Nuclear Generating Station**. Ensured compliance with **Work Protection Code (WPC)**, **Proficiency Model**, **nuclear safety standards**, and reliability of daily and monthly reporting.
- Analyzed **Sequence of Event Records (SOER)**, **Station Condition Record (SCR)**, and **Operations Shift Logs** to identify trends, detect anomalies, and provide data-driven insights with **TWIN Model** that supported fleet-wide operational improvements.
- Enhanced **Crew Learning Brief (CLB)** dashboards to visualize key performance indicators, operational trends, and station-level insights. Enabled faster and informed decision making for operations teams.
- Utilized **Corrective Action Program (CAP)** and **Electronic Safe Work Plan (eSWP)**. Validated performance data and identifying trends. Highlighted emerging issues requiring line management attention.
- Collaborated with operators and performance improvement teams to resolve data discrepancies, and **corrective action tracking**. Ensured alignment between **station-level metrics** and **corporate reporting requirements**.
- Developed **Power BI** dashboards. Visualized **key performance indicators, operational risks, and performance trends** to support data-driven decision making by internal and external stakeholders.
- Administered **Electronic Performance Reporting (EPR)** program. Validated operational data submissions, and ensured accuracy of information utilized by stakeholders for reporting and performance monitoring.

Operations Team Member

Mar. 2023 – Nov. 2024

Starbucks

Toronto, ON

- Provided **quality assurance** by training new team members on standardized procedures, and ensured compliance with Starbucks operational and safety guidelines.
- Monitored **key performance indicators (KPIs)**, including transaction volume, peak sales periods, and supply demands. Enhanced data-driven decisions in daily operations and improved operational efficiency by **85%**.
- Analyzed sales and supply data to optimize inventory planning, reducing overstock and waste by **10-20%**.
- Utilized POS data to identify customer behavior patterns. Supported upselling and product placement strategies.
- Supervised team members to implement process improvements strategies, according to operational data and customer feedback. Improved service efficiency and reducing wait times by **20%**.

CERTIFICATIONS & TECHNICAL SKILLS

Certifications: CAPM (Certified Associate in Project Management-In Progress), IBM Project Management Fundamentals, IBM Cybersecurity Fundamentals, IBM Governance-Risk-Compliance & Data Privacy, IBM Vulnerability Management, IBM System & Network Security, IBM Cloud Security, IBM Security Operations & Management, IBM Incident Response & Systems Forensics, IEEE Python Programming Language, Amazon Web Service Technical Essentials

Technical Skills: Business Analysis & Reporting, Performance Trending & Analysis, Risk Assessment & Management, Stakeholders Relationship, Project Management, Predictive (Waterfall) & Agile Methodologies, Scope-Schedule-Cost Analysis & Forecasting, Business Planning, Reconciliation Processes, Nuclear Safety & Regulations, Quality Assurance (QA), Database Management, SQL, Power Automate, Power Apps, Power BI, Microsoft Excel

EDUCATION

Toronto Metropolitan University (formerly Ryerson University)
Bachelor of Science in Computer Science (Honours)

Toronto, Canada
Oct. 2025
