EXPERIENCE

Nuclear Business Analyst

Dec. 2025 – Present

Ontario Power Generation

Oshawa, ON

- Delivered **business plan** and **monthly nuclear energy forecasts**. Analyzed derates, outage submissions, and Safety Performance Indicator (SPI) data. Coordinated timely report to **Canadian Nuclear Safety Commission (CNSC)**, **INPO/WANO**, and **Independent Electricity System Operator (IESO)** market.
- Managed **Nuclear Generation (NuGen)**, financial and statistical databases. Prepared **monthly revenues, operating budgets**, and **capital variances** of Pickering nuclear units to internal and external stakeholders.
- Conducted reviews of nuclear outages, outage management, generation scheduling, financial risk management and compliance monitoring to provide **financial, budgetary** and **administrative** data to support operational teams.
- Coordinated the submission of operational metrics to the **Institute of Nuclear Power Operations (INPO)**. Ensured compliance with industry reporting requirements and supporting external benchmarking initiatives.
- Prepared Pickering Nuclear station's **short and long-term fleet generation forecasting** and **targets** to be utilized by **energy market teams** for **budgeting, business planning** and **long-term generation planning**.
- Performed monthly performance and compliance reviews (**Report Card analysis, KPIs**) to assess operational effectiveness. Strengthened internal controls, supported audit readiness and quality assurance processes.

Nuclear Business Analyst/Performance Improvement Intern

May. 2025 – Dec. 2025

Ontario Power Generation

Pickering, ON

- Performed observation and coaching at **Pickering Nuclear Generating Station**. Ensured compliance with **Work Protection Code (WPC)**, **Proficiency Model**, **nuclear safety standards**, and reliability of daily and monthly reporting.
- Analyzed **Sequence of Event Records (SOER)**, **Station Condition Record (SCR)**, and **Operations Shift Logs** to identify trends, detect anomalies, and provide data-driven insights with **TWIN Model** that supported fleet-wide operational improvements.
- Enhanced **Crew Learning Brief (CLB)** dashboards to visualize key performance indicators, operational trends, and station-level insights. Enabled faster and informed decision making for operations teams.
- Utilized **Corrective Action Program (CAP)** and **Electronic Safe Work Plan (eSWP)**. Validated performance data and identifying trends. Highlighted emerging issues requiring line management attention.
- Collaborated with operators and performance improvement teams to resolve data discrepancies, and **corrective action tracking**. Ensured alignment between **station-level metrics** and **corporate reporting requirements**.
- Developed **Power BI** dashboards. Visualized **key performance indicators, operational risks, and performance trends** to support data-driven decision making by internal and external stakeholders.
- Administered **Electronic Performance Reporting (EPR)** program. Validated operational data submissions, and ensured accuracy of information utilized by stakeholders for reporting and performance monitoring.

Operations Team Member

Mar. 2023 – Nov. 2024

Starbucks

Toronto, ON

- Provided **quality assurance** by training new team members on standardized procedures, and ensured compliance with Starbucks operational and safety guidelines.
- Monitored **key performance indicators (KPIs)**, including transaction volume, peak sales periods, and supply demands. Enhanced data-driven decisions in daily operations and improved operational efficiency by **85%**.
- Analyzed sales and supply data to optimize inventory planning, reducing overstock and waste by **10-20%**.
- Supervised team members to implement process improvements strategies, according to operational data and customer feedback. Improved service efficiency and reducing wait times by **20%**.

Law Practitioner

May. 2020 – Sep. 2021

Kaplan Law Firm

Ankara, Turkey

- Managed **legal projects, scope, timelines**, and **deliverables**. Performed evidence analysis, legal research, and strategy development. Achieved alignment with defined objectives and regulatory requirement.
- Identified risks by analyzing legal projects, **contract details** and potential outcomes. Implemented mitigation strategies, reduced potential legal exposure.
- Maintained project documentation (case briefs, affidavits, reports). Ensured adherence to governance standards.
- Coordinated with multiple **stakeholders** (clients, legal teams, and court officials). Facilitated clear communication and alignment across all phases of the case life cycle.
- Monitored **legal projects** against milestones, evaluated outcomes, and implemented process improvements. Resulted enhanced efficiency and consistency.

PROJECTS

- Brain Tumor Segmentation** | *Python* | [See GitHub Repository](#) Dec. 2024
- Developed a U-Net model for brain tumor segmentation. Achieved a Dice Coefficient of **0.91** and F1-score of **0.89**. Showcased in deep learning, machine learning, computer vision, and medical imaging.
 - Processed **1,000+** MRI images with techniques such resizing **256x256**, normalization, and data augmentation to enhance model generalization. Achieved a Jaccard Index of **0.87** and precision of **0.90** on test data.
 - Automated an end-to-end machine learning pipeline for segmentation mask generation, evaluation, and visualization. Utilized **TensorFlow**, **OpenCV**, and **Scikit-learn** to streamline model deployment and interpretation.
- Database for Shoppers Drug Mart** | *SQL, Python, Bash* | [See GitHub Repository](#) Nov. 2024
- Designed a Point of Sale (POS) database system for Shoppers Drug Mart. Used **SQL** and **Python**, with **6+** relational tables to manage transaction recording, inventory updates, and customer loyalty point tracking.
 - Implemented advanced queries and normalization techniques (BCNF/3NF) to manage inventory, track employee transactions, and maintain customer profiles. Ensured **100%** data integrity and optimized performance.
- ChatGPT Survey** | *Python* | [See GitHub Repository](#) Sep. 2023
- Designed and analyzed a 500+ response survey. Implemented **Python**, **Pandas**, **Matplotlib**, **Microsoft Excel**, and **Power BI**. Automated CSV data processing. Improved efficiency by **30%**, and developed interactive visualizations (bar graphs, pie charts) to present insights on demographics, user preferences, and AI adoption trends.
 - Developed modular functions for reusable data visualizations, including bar charts, pie charts, and custom annotations, automating **10+** visuals. Enhanced readability and decision-making.

CERTIFICATIONS & TECHNICAL SKILLS

Certifications: CAPM (Certified Associate in Project Management-In Progress), IBM Project Management Fundamentals, IBM Cybersecurity Fundamentals, IBM Governance-Risk-Compliance & Data Privacy, IBM Vulnerability Management, IBM System & Network Security, IBM Cloud Security, IBM Security Operations & Management, IBM Incident Response & Systems Forensics, IEEE Python Programming Language, Amazon Web Service Technical Essentials

Technical Skills: Business Analysis & Reporting, Performance Trending & Analysis, Risk Assessment & Management, Stakeholders Relationship, Project Management, Predictive (Waterfall) & Agile Methodologies, Scope-Schedule-Cost Analysis & Forecasting, Business Planning, Reconciliation Processes, Nuclear Safety & Regulations, Quality Assurance (QA), Database Management, SQL, Power Automate, Power Apps, Power BI, Microsoft Excel

EDUCATION

- Toronto Metropolitan University (formerly Ryerson University)** Toronto, Canada
Bachelor of Science in Computer Science (Honours) Oct. 2025
- Kırıkkale University** Kırıkkale, Turkey
Bachelor of Laws (LLB) Aug. 2019
